

BOB JONES NATURE CENTER

Cross Timbers Forest Preschool

Nature immersion outdoor preschool classes in the Cross Timbers Ecosystem.

Launching August 23
9:00 AM – 12:00 PM

Our new and enhanced Cross Timbers Forest Preschool program is based on European-style Forest Schools. Children, aged 3-5 years old, will explore nature through hands-on activities, nature lessons, music, stories, hikes, and art.

At the Bob Jones Nature Center, we conduct our classes based on the research that natural environments inspire more creative play, improved concentration, teamwork, cooperation, and problem solving. The Cross Timbers Ecosystem provides the ideal outdoor classroom for children to grow and begin to understand how humans, their development, and the natural world are integrally connected.

REGISTRATION

Min 4 – Max 12 • Ages 3 – 5
(Instructor to student ratio 1:6)
16 weeks

Bob Jones Nature Center, 355 Bob Jones Road

WHY?

Many of us know intuitively that children should spend time engaged outdoors and there is ample scientific research which confirms our intuition. Course topics are carefully chosen to allow children to experience the Cross Timbers flora and fauna at their most active and interesting times during their life cycle.
